StoneScapes® Mini Aqua Blue

The secret to
**Beautiful
Pool Water**
is selecting the right interior
pool finish for you.

**StoneScapes scientifically
formulated surface systems**
create consistent, dependable color.
Thanks to our select, smooth, polished
pebbles, StoneScapes finishes are
easy on hands and feet.

First, Decide...

whether you would like the water in your pool to appear blue or green.

For water that looks
Primarily Blue,
select a finish with white, blue, or gray pigment.

For water that
Appears Green,
look for green, tan, brown, or black pigment.

Achieve

deep, rich water color.

{ 9 Feet Deep }

{ 4 Feet Deep }

**The Darker
Your Finish,**
the darker your pool
water will be.

**The deeper
the water,**
the darker it will appear.

Water will seem lighter in shallower areas like steps, ledges, benches, and beach entries where the finish itself is more visible.

Beauty, More than Surface Deep...

To achieve a deep, rich water color in a pool without a deep end, select a dark colored pool finish.

Your pool's depth has a huge impact on the color of your water.

Your pool may actually appear deeper when you select a finish with a darker pigment.

Mirror

your surroundings.

Since Your

Pool Water

will mirror its surroundings, many other factors will impact water color:

- The design, shape, and depth of your pool
- The time of day and position of the sun
- Whether the sky is sunny, stormy, or overcast
- Your region of the country
- The chemistry of your water
- Landscaping, trees, bushes, and other foliage
- Colors in your home's exterior

Subtle Changes

in the appearance, created
by the play of sunlight and
shade, are part of the

Inherent Beauty

of your pool finish.

The color of your
Pool Water will be

Uniquely Yours.
